Quite an excitement was caused the other day by parties boring a well in Logan discovering that the dirt brought up contained something resembling gold in very fine particles. The impression was spread that a town had a foundation of gold quartz, but a test proved the truth of the saying: "All that glitters is not gold." The fine particles were produced by the friction of a brass coupling.  
Bennett Trelore engaged in a fight with James Crawford this morning in front of the Eureka Saloon. Trelore dealt Crawford a stunning blow over the eye with a billiard cue. Both men are under arrest and will be tried to-morrow.  
The Rough and Ready met the Reds on the diamond Saturday for \$30 a side.

## The "Mikado."

The first regular practice of the "Mikado" organization took place at Carless' music room last evening. There were about forty members in attendance and the result of the evening's practice was most gratifying. Everything now indicates that our home company will produce this very novel opera in a most creditable manner and at an early date. The costumes for the Japanese style of dress and will probably be made by one of our Salt Lake firms.  
The cast embraces the best operatic ability in the community and will be given in full to the public in a few days.

## THE SANDY SAFE BURGLARY.

**Greenhorn Burglars Blow Open a Safe for \$15, and Leave \$350 in Greenbacks.**  
A report reached Salt Lake this morning to the effect that a daring and partially successful safe burglary occurred at Sandy last night, the victim being E. Holman, a dealer in general merchandise. The burglars drilled a hole in the door of the safe, inserted powder and blew off the combination. They carried \$15 in silver and made off with it, but must have been painfully nervous and in a great hurry to get away, for in a corner singly reposed a wad of \$350 in greenbacks, which of course they failed to see, so they were poorly paid for their criminal trouble. Parties are suspected, but at latest advices there was no proof sufficient to warrant an arrest.

## The Outgoer and Incomer.

The term of Mr. G. B. Fletcher, as assistant city attorney, expired on Tuesday, when he was succeeded by Mr. J. Moyle, a recent graduate of Ann Arbor, and a native of Utah. Of the former gentleman it is but just to say that he has had a long incumbency in that tedious and trying position, but was always at his post and energetic and able in the prosecution of wrong-doers, showing such persistence and industry as should win him laurels and laurels on the other side of the line. Of Mr. Moyle it can only be said that he gives promise of becoming a useful officer with the acquisition of those points and tactics which come only by practice. He is gentlemanly in his deportment, and possessed of a good education, both indispensable accessories to those who would climb.  
**The Session of the Supreme Court.**  
A session of the Supreme Court of Utah Territory was held to-day at 2 o'clock, pursuant to adjournment. Present and presiding, the Hon. C. S. Zane, Chief Justice; Hon. J. S. The accounts of United States Commissioner D. W. Felschaw, of Ogden, were duly examined and approved, as being correct in every particular.  
Mr. J. H. Moyle was admitted to practice in the Supreme Court of Utah on motion of F. S. Richards and order of the Court.  
Court adjourned to the 10th day of October at 2 o'clock p. m.

## In Jail Over a Check.

Yesterday afternoon Mr. O'Reilly, the clothing man, accommodated a man named Dougherty, from Tintic, by cashing a check signed by Pat Shay for \$200 dollars. After the man had left the store Mr. O'Reilly began to think something might be wrong about the genuineness of the check, and consequently telegraphed to Mr. Shay, who replied back to hold the man until further notice.  
The man was arrested and put in jail, where he now awaits the arrival of the party from Tintic to either clear him of any suspicion or convict in the trial set for to-morrow afternoon.

## Food for Paraphraser.

A New York doctor says people might as well eat sawdust as oatmeal for breakfast. If that doctor only knew how many active paraphraser will vouchsafe the remark that he probably bases his declaration on the fact that sawdust is a very fine board he would have restrained himself from philanthropic motives.

## ABOUT HUMBOLDT WELLS, NEV.

A "Democrat" Correspondent Collects Some Notes of Interest While Journeying in the Sagebrush.

WELLS, NEV., Aug. 31.  
This town is located on the Central Pacific Railroad at the head of the Humboldt river, and is so named on account of a great number of natural wells in the vicinity. They are the source of the river just mentioned, and scatter over a considerable extent of ground. Shortly after midnight, the 26th inst., we arrived in this burg, and were much surprised to find so much going on in so small a place, consisting, as it does, of a half-dozen places of business, twice as many private houses, a big depot and storage room, and a lot of deserted railroad shops. The town does a great deal of business, as it is the shipping point to and from a mining district about forty miles distant, and the central point for a large number of ranch people to do their trading. For a wonder, the town is not over done by more places of business than the trade legitimately demands, so that prices are not down to a starving point by competition.  
Our attention was attracted by the number of large men in the place; we never saw so many in a small town. When in the presence of ordinary people, they look like giants among pygmies. These big fellows are, however, social and intelligent men, the foremost of them all being an old politician and a staunch good Democrat who was a MEMBER OF THE CONVENTION THAT NOMINATED CLEVELAND.

## THE SANDY SAFE BURGLARY.

He is somewhat known in Utah, and Hon. E. P. Hardesty is his name. Last evening several gentlemen, including the DEMOCRAT representative, were sitting outside enjoying the cool air and indulging in reminiscences. We were not surprised to see a tramp approach the group, but were considerably astonished to soon discover in him an educated Englishman on a tour around the world. From New Zealand he had made his way to California, from that State to this one, and on the morrow he would again take up his journey for the land of the rising sun, and thence proceed to his own dear native land. In speaking of the Californians, he expressed himself in no complimentary terms, saying that they were not half civilized, but, he probably, as every tramp does, appeared but "half civilized" to the Coast people, and therein is the sequel of his disgust.

## NEW CALIFORNIA PLACERS.

The Prescott Reef and Bullion says that the Mesquite placers, which have been worked about fifty miles northwest of Yuma in San Diego county, Cal. The country is very dry, and covered on a surface to a depth of several inches with a deposit of burned rock of lava, from which the heat steams up in the afternoon like a mist. The thermometer during the day at this time of the year averages 116 in the shade. The nearest water is at Yuma, fifty miles off, whence the party had to be shipped by the carload to Mesquite station, ten miles from the placers. Water for camp purposes cost the party \$10 a day. The dirt averages \$2 a ton, although far richer dirt has been found here and there in the past. With lighter machines Mr. Leathworth leaves the dirt can be worked at \$1 a ton, leaving \$1 a ton profit. During the hot months men cannot work more than five hours a day. At a distance of twenty miles from the placers is the Cargo Mochacho, a very rich gold mine, which has recently been bonded by the Bonanza party for \$20,000. At a depth of eighty feet in the mine an immense supply of water was struck.

## IT NEVER FAILS.

They had been enemies three long years. They passed each other on the street with stern faces, their wives made fun of each other's dresses, and the children climbed up on the back fence and called each other shoddy aristocrats. Oh, no, there was no love of peace around there, and lots of people predicted that the ground would grow out of it. Last evening the two neighborhood enemies met in a neighborhood where two families who had thrived for each other's scalps were seen in sweet conversation on the lawn. The men exchanged cigars, and the women admired each other's latest purchases, and little children hugged each other all over the grass.  
How did the change come about? Well, neither man never owned a horse in his life, and neither of them knew a case of spavin from a blooming instance of polio. Jones decided, however, to get a horse. He was looking one over at his hitching post, when Smith came along in a moment of forgetfulness Jones remarked: "Say, Smith, you know all about a horse. How old is this animal?"  
In the jerk of a comet's tail rancor and bitterness were forgotten. The flattery hit the plumb center and ripped all the buttons of the request, and out came the ringbones, stiff knees, and splints, and advised Jones not to buy. They went off arm in arm, and the dove of peace now sits on the housetops and warbles his joyous little soul up to high G.—*The Free Press*.

The sight was both strange and beautiful; above and behind are lofty mountain peaks capped with banks of snow, and below a large and fertile valley stretches to view. People, when industrious and temperate, can't help but be happy, healthy and prosperous.  
MILFORD.

## THAT TIMBER SEIZURE.

**Seven Hundred Thousand Feet Exploited for Uncle Sam at Schofield.**

We referred briefly yesterday to a seizure of government timber by Receiver H. C. Wallace, of the Land Office in this city. The seizure was of wholesale proportions, amounting to over 700,000 feet, all of which had been advertised for sale at auction at Schofield by the possessor and claimant, David Eccles. Eccles set up, as defensive matter, that he had learned from several Federal officials at Ogden, where he resides, that timber on government lands was subject to the same rules and conditions as the taking of coal oil, that is if it could be used for purposes of export, and that a large number of persons have been thus engaged without molestation, small fortunes in some instances having been gained thereby. Brother Eccles seemed to remember that everything must have a beginning, and that several wrongs do not make even a fraction of one right.  
It is understood that other transgressors are on the Land Office black list, and that those who represent the government in that branch of the service are determined to be neither lax nor lax in enforcing all laws and regulations in such cases made and provided. Those who seek themselves at fault in the premises would do well to "repent what's past, beware what is to come."

## A Pioneer.

S. B. Moore, of Provo, is in our midst again. Steve, as the boys call him, has a record, being the original discoverer of the Tintic mines, having made the first location there, and was the first recorder of the district. He is one of the few who receive fortune's favors and frowns with equal thanks, preferring the former as a general thing; and if he has not made a desert of himself so far, he has deserved it, at least that is what he can say of the original of that name.

## The Idahoan Again to the Front.

Last Saturday, Superintendent Havens disbursed what is called here a "four-barreled" dividend. That is to say, he divided \$8,000 among the owners of the Idahoan mine. As four other dividends (\$2,000 each) had already been declared and paid since the first of August, current, this made \$16,000 profit out of the earnings of the mine during the month.  
As Mr. Nye, one of the owners, informed the *Wood River Times* reporter, last week, that there was enough ore in sight to pay dividends for months, the public may expect to hear more of the Idahoan mine from time to time.

## The Second Test of the Grenades.

An immense crowd of people gathered around the temporary frame works on the Wasatch corner last night to witness a double test of the fire extinguishing grenades. The experiment was a perfect success, and the spectators were more praise giving than on the previous night. There is no disputing the real worth of the hand grenades in cases of fire, and the agents will no doubt sell a great quantity of the goods.

Dr. Foote, Senior, author of "Plain Home Talk," "Medical Common Sense," etc., would say to those who would like to consult him by mail that they can have a list of questions and a circular of gratuitous advice by addressing Box 414, Salt Lake City. The doctor has arranged to have such information supplied in this way to save time. Receiving such printed matter the correspondent can describe his or her case fully and direct it to the doctor in New York. Dr. Foote is successfully treating all forms of chronic diseases, a specialty to which he has devoted thirty years of study and practice. Evidence of his success can also be had by addressing Box 414, as above, but all letters of consultation and orders for remedies should be directed to Dr. E. B. Foote, Sr., 120 Lexington Avenue, New York City, N. Y. Consultation free. An advertisement of Dr. Foote, Sr., in another place deserves attention.

## A Bold Burglary at Sandy.

SANDY, UTAH, September 3.—E. Holman's store was burglarized last night. The back door was pried open and an entrance made. A hole was drilled in the safe door, the bolt broken, and about \$15 in change taken. The contents of the safe were scattered on the floor. Checks and other valuable papers were unharmed.

## A Farewell Token.

The many friends of Mrs. B. Cohen surprised her by a call at the Kalin residence last night, where she was presented with a most beautiful souvenir. The memento consisted of a set of rich onyx ear-rings and a brooch set with nine elegant diamonds, representing the esteemed lady and her eight worthy children. The kind remembrance portrayed by such an appropriate token, shows the high regard with which the estimable lady is held by her large circle of Salt Lake acquaintances. The best wishes accompany Mrs. Cohen and her children on their departure for Butte to-day.

## Kicked to Death.

George Hill, a youth 16 years of age, fell from a wagon loaded with grain, on Saturday last, in Spanish Fork, and was instantly killed. With his brother he had been loading up the wagon with grain, George being on the wagon, while his brother was below, pitching up the grain. The horses started suddenly, and George was thrown from the wagon on to the harness, from which he could not extricate himself before he was thrown under the feet of one of the horses and kicked to death; his neck was found to be broken. Before the brother reached him the unfortunate young man had breathed his last.—*Provo Enquirer*.

## They Paid for Their Fun.

A piano-forte in a Second South Street baffle went out last evening for a suburban drive. After taking in the refreshing sights of the boulevard her gentleman escort drove upon the Eighteenth ward bench for a look at the illuminated city. It being quite dark and the gentleman unfamiliar with the sideling streets, he drove off a steep embankment and smashed the carriage completely to pieces.

The woman received a fracture of the arm and several severe bruises, and was taken to the hospital, where she broke loose and returned to her favorite abode. The man was considerably injured, and was attended to by physicians. The horse and demolished buggy were cared for by the proprietor, who is computing an estimate of actual damages.

## A FIRE IN BELLEVUE, IDAHO.

**Four Houses and About \$4,000 Worth of Property Destroyed.**  
About 5 o'clock yesterday morning the store of Carothers Brothers, in Bellevue, was discovered on fire. A Chinaman gave the alarm, and Constable Hicks, who rushed to the place at once, found no water flowing in the ditch, and the back door of the store open. The flames soon spread to an adjoining building, and then to another. The further progress of the flames was stopped by demolishing a log cabin. Four houses and a small stock of groceries were destroyed. Total loss, about \$4,000. Insurance, \$1,500. The fire is supposed to be due to incendiarianism, because the water had been turned out of the ditch in the rear of the town.—*Hailey Times*, 31st ult.

## Some Fine-Bred Mares.

Mr. Charles Gilmer, the enterprising stock man of West Jordan, has just consummated a sale of eight head of trotting-bred mares to Mr. R. N. Baskin, of this city. The mares are in foal to the standard horse "Equinox," No. 2,143. One of them is a granddaughter of the well-known Salt Lake horse "Pat Hunt," who has a wagon record of 2:25. Mr. Baskin has forthcoming some excellent horseflesh for the race course that promises to make the Salt Lake steppers hungry. Utah is fast taking an interest in raising the standard of horses in the Territory.
